

## Leadership MOT Pathway

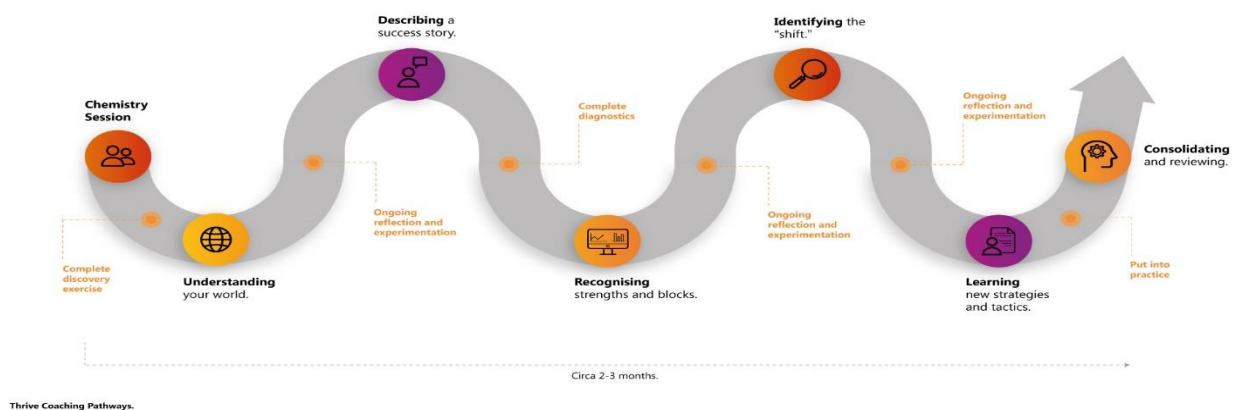

The **Leadership MOT** is a coaching pathway designed for established leaders who believe it is important to continue their learning, and to refresh and fine tune their leadership approach in order to get the best from their people in these turbulent and extraordinary times.

It is well known that different contexts and challenges call for different styles of leadership, and therefore flexibility, adaptability, continual learning and refining, are crucial attributes for leaders. Although perhaps successful to date, it is critical to recognise that *“what got you here, wont necessarily get you there!”*

The **Leadership MOT** pathway brings the whole system explicitly into the coaching process by gathering data from a number of self-selected sources and using different media to enhance sensemaking and enrich the coaching experience.

Engaging with the coaching pathway will enable you to identify **the shift**; the difference that will make the difference to realising your success story.

## Thrive Coaching Pathways.

### The pathway includes:

- 4 x 1 hour coaching sessions with a qualified coach.
- A guided visualisation using virtual world technology.
- A verbal 360 questionnaire conducted by your coach to include 5 respondents of your choice.
- An additional self-report diagnostic recommended by your coach e.g. Insights Discovery®, Influencing Styles, Talent Q Dimensions.
- Tools and resources relevant to your identified shift.

**£1,750 per pathway (excluding diagnostics)**

*“I first worked with Seren 10 years ago at ITV, and her skills have sculpted my approach to leadership today. Refreshing my approach to leadership with her through this pathway has been invaluable in helping me think about how to take the business forward. Seren asks questions that really challenge your thinking and is skilful in helping you identify what is really important.”*

**Richard Parboo, CEO, Lancelot Media London**
